Tasg 1 / Task 1

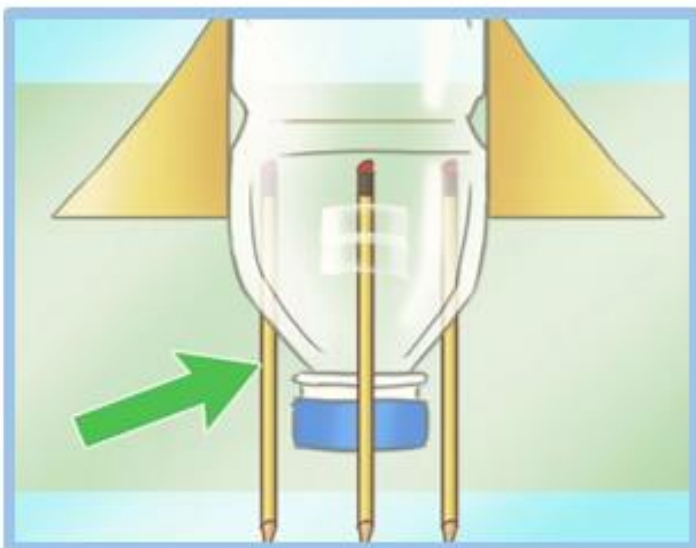

Bydd angen: potel plastig, côn papur a 2 triongl wedi neud allan o gerdyn. 3 pensil. Corcyn, dwr a phwmp beic.

Gather your materials: plastic water bottle, a paper cone, and two paper or cardboard triangles. 3 pencils to make a stand. Cork, water, and a bicycle pump to pressurize the bottle.

Rhowch y con papur ar ben y roced (gwaelod y potel). Gludwch y trionglau cerdyn i bob yn ochr y potel, tua hanner ffordd lan.

Tape a paper cone to the top of the rocket (the bottom of the bottle). Tape paper or cardboard triangles on either side of the bottle, roughly halfway up the bottle.

Adeiladwch Sylfaen ar gyfer eich roced. Rhowch bensiliau o amylch y potel. Sicrhewch fod y pensiliau yn pwyntio i lawr.

Build a rocket stand. Tape pencils around the sides of the bottle to make a stand. Make sure that the pencils are pointing down.

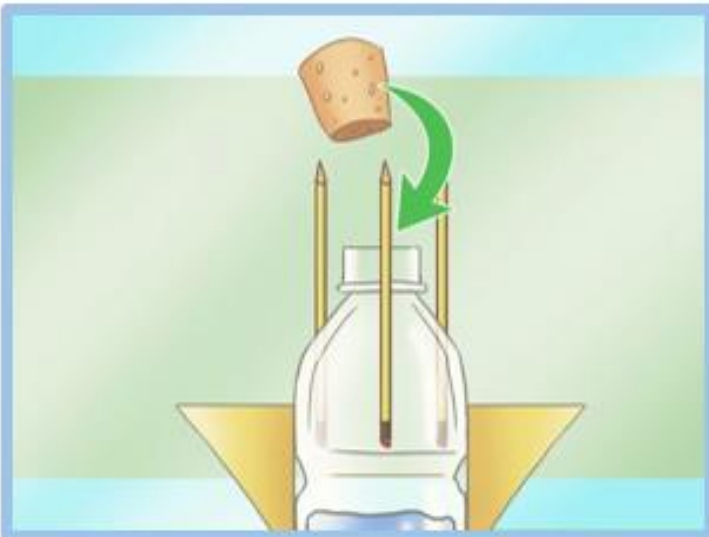

Arloesi / Innovation

Tasg 1 / Task 1

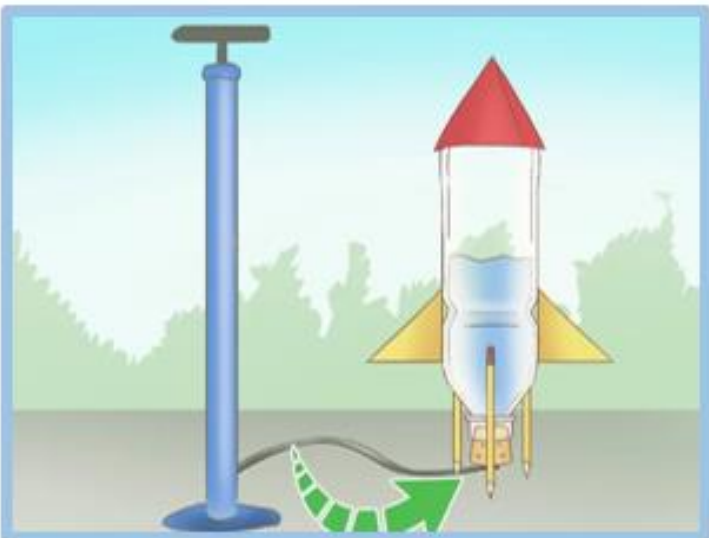

Rhowch ddwr yn potel. Tua hanner ffordd lan.

Put water in the bottle. You should fill the bottle half full of water.

Newidwch y caead gwreithiol efo corcyn. Bydd y corcyn yn sicrhau gwasgedd. Bydd y corcyn yn dod allan a bydd y roced yn hedfan gan wasgaru'r dwr.

Replace the original cap with a cork that fits into the opening of the bottle. The cork will allow pressure to build inside the bottle. The cork will also pop out allowing the contents to shoot out.

Pwmpiwch aer mewn i'r potel. Defnyddiwch pwmp beic. Rhowch nodwydd y pwmp mewn trwy'r corcyn, yna pwmpiwch.

Pump air into the bottle. Use a bicycle pump with a needle. Insert the needle into the bottle through the cork and pump.

- Pensil / Pencil
- Glud / Glue stick
- Gllud PVA / PVA glue

Helmed Plât Papur Diffoddwyr Tân

Bydd angen:
You will need:

- Plât papur / Paper plate
- Cerdyn / Card
- Paint / Paint
- Peniau ffelt / Felt pens
- Sîswrn / Scissors
- Pencil / Pencil
- Glud / Glue stick
- Glud PVA / PVA glue

1 Carefully cut out the centre circle of the paper plate without damaging the outer rim. Keep the circle as this will be the front of your helmet.

4 Now design a badge for the front of the hat! Then cut this out.

2 Draw and cut out a shallow semicircle from the card. This will form the rim for the front of the hat.

5 Using the glue stick, attach the badge to the top part of the hat. You may want to draw around the outline of the badge, using a felt-tip pen.

3 Paint both parts of the paper plate, along with the card, then leave to dry.

6 Now attach the top part of the hat to the circular rim. To do this, first cut a small slit in opposite sides of the rim. Then slot the top part of the hat into these and stick in place at an angle.

7 Next stick the semicircle shaped piece of card to the front of the hat using PVA glue.
